

CHANGING LANDSCAPES: Mental Health at Work

28 February 2023: 10 Union Street, London

We're delighted to announce that another March on Stress conference: *Changing Landscapes: Mental Health at Work* will take place at 10 Union Street, London Bridge SE1 1SZ on 28 February 2023.

The focus of the conference will be mental health in the workplace – with a particular focus on how recent and current events are shaping the landscape. The event will begin with a keynote from the President of the Society of Occupational Medicine **Dr Shriti Pattani**. We will also be lucky enough to welcome child trauma expert **Dr David Trickey**; President of the UK Psychological Trauma Society **Dr Dominic Murphy**; and Senior Associate Employment Solicitor, **Ryan Bradshaw**.

More speakers will be announced soon but they will include experienced peer supporters, experts and academics from public and private sector organisations.

And the event will also mark the 20th anniversary of March on Stress!

The conference will offer a fantastic opportunity for anyone interested in, or involved with, supporting people with trauma or stress in the workplace to hear case studies and accounts from a range of organisations, as well as occupational and operational mental health experts. It will also be an excellent chance for delegates to network with their professional peers and enhance their own Continuing Professional Development (CPD).

Don't delay, book your place today - feedback from our previous conferences means it promises to be a valuable, informative and enjoyable day.

Discounts available for charities and public sector (following Early Bird period only)
